BILITIES

SCRUM ACCOUNTABILITIES

V2.1

The 2020 Scrum Guide describes the accountabilities of the Scrum Team. This exercise helps you explore and discuss where the primary accountabilities lie within Scrum.

1. **Step 1:** Place the Accountabilities on the floor and handout the activities.
2. **Step 2:** Ask the group to form groups of 2-3 people and give them a subset of the orange-white cards.
3. **Step3:** Ask the groups to place the activities at the corresponding Accountability.
4. **Step 4:** Allow each participant to go through the overview individually and turn the cards she/he thinks is not at the correct Accountability.
5. **Step 5:** Discuss the cards that are not clear for everybody.

Scrum Facilitators work globally with trainers in the Netherlands, United Kingdom, and Singapore. Our mission is to help professionals become awesome Scrum Facilitators by supporting Scrum Masters, Product Owners, Developers and Leaders. A Scrum Facilitator's work is based on Scrum Goals, Values & Principles. A Scrum Facilitator uses these aspects to support the effective use of Scrum in their organisation.

Scrum Facilitators are partners with **Scrum.org** and **ProKanban.org**. We design all classes to maximise the learning impact and student value. Our classes are highly interactive, industry relevant and an enjoyable learning experience. Each class has two certified, knowledgeable experts with extensive real-life experience.
